Dear Mr. Moskiewicz,

Thanks for your letter of the past few days and your kind comments in it.

With regard to the AR 15, while what you say is true I believe that all of the official evidence that is credible rules out the possibility of any shot from that AR 15. The Donahue invention of which you may have heard is impossible.

On the chance that you may want some of my earlier books I enclose the list of them.

Post Mortem is a rather large book, with a large appendix of facsimile reproduction of the official evidence. It is about the medical evidence and what relates to it.

Thanks and best wishes,

Harold Weisberg

Please excuse my typing. I'm 83 now and my health is impaired.
